13 **FINDINGS OF FACT, CONCLUSION OF LAW AND PERMANENT INJUNCTION**

14
15 This matter having come before the Court for a non-jury trial on Phase 2 pursuant to the Trial
16 Protocol¹ beginning on July 17, 2020², and occurring day to day thereafter until its completion on
17 August 18, 2020. The following counsel and party representatives participated in this Phase of the
18 Trial:³

19 *The Plaintiffs*

20 Dominic P. Gentile, Esq., John A. Hunt, Esq., Mark S. Dzarnoski, Esq. and Ross J. Miller, Esq.,
21 of the law firm Clark Hill, appeared on behalf of TGIG, LLC; Nevada Holistic Medicine, LLC; GBS

22 ¹ Phase 2 as outlined in the Trial protocol includes:

23 Legality of the 2018 recreational marijuana application process (claims for Equal Protection, Due Process,
24 Declaratory Relief, Intentional Interference with Prospective Economic Advantage, Intentional Interference with
25 Contractual Relations, and Permanent Injunction).

26 ² Prior to the commencement of trial the Court commenced an evidentiary hearing relief to Nevada Wellness motion
27 for case terminating sanctions filed 6/26/2020. The decision in 136 NAO 42 raised issues which caused the Court to
suspend that hearing and consolidate it with the merits of the trial. As a result of the evidence presented during trial the
motion is granted in part.

28 ³ Given the social distancing requirements many representatives attended telephonically for at least a portion of the

17
18
19 Having read and considered the pleadings filed by the parties, having reviewed the evidence
20 admitted during this phase of the trial⁶, and having heard and carefully considered the testimony of the
21 witnesses called to testify, having considered the oral and written arguments of counsel, and with the
22 intent of deciding the remaining issues⁷ related to Legality of the 2018 recreational marijuana
23 application process only⁸, the Court makes the following findings of fact and conclusions of law:
24

25 _____
26 ⁶ Due to the limited amount of discovery conducted prior to the Preliminary Injunction hearing and the large volume
of evidence admitted during that 20-day evidentiary hearing, the Court required parties to reoffer evidence previously
utilized during that hearing.

27 ⁷ The Court granted partial summary judgment on the sole issue previously enjoined. The order entered 8/17/2020
28 states:

1 **PROCEDURAL POSTURE**

2 Plaintiffs are a group of unrelated commercial entities who applied for, but did not receive,
3 licenses to operate retail recreational marijuana establishments in various local jurisdictions throughout
4 the state. Defendant is the DoT, which was the administrative agency responsible for issuing the
5 licenses at the times subject to these complaints. Some successful applicants for licensure intervened as
6 Defendants.

7 The Attorney General’s Office was forced to deal with a significant impediment at the early
8 stages of the litigation. This inability to disclose certain information was outside of its control because
9 of confidentiality requirements that have now been slightly modified by SB 32. Although the parties
10 stipulated to a protective order on May 24, 2019, many documents produced in preparation for the trial
11 and for discovery purposes were heavily redacted or produced as attorney’s eyes only because of the
12 highly competitive nature of the industry and sensitive financial and commercial information involved.
13 Many admitted exhibits are heavily redacted and were not provided to the Court in unredacted form.

14 After Judge Bailus issued the preservation order in A785818 on December 13, 2018, the
15 Attorney General’s Office sent a preservation letter to the DoT. Pupo, Deputy Director of the DoT,
16 testified he was not told to preserve his personal cellular phone heavily utilized for work purposes. He
17 not only deleted text messages from the phone after the date of the preservation order but also was
18 unable to produce his phone for a forensic examination and extraction of discoverable materials. The
19 Court finds evidence has been irretrievably lost as a result of his actions.

20 While case terminating sanctions and/or an irrebuttable presumption were requested, after
21 evaluation of the Ribiero factors, given the production of certain text messages with Pupo by some
22

23 [T]he DoT acted beyond the scope of its authority by replacing the requirement for a background check of each
24 prospective owner with the 5 percent or greater standard in NAC 453D.255(1).

25 The entry of these findings will convert the preliminary injunction on this issue to a permanent injunction.

26 ⁸ While several plaintiffs have reached a resolution of their claims with the State and certain Industry Defendants,
27 the claims of the remaining plaintiffs remain virtually the same. At the time of the issuance of this decision, the following
28 plaintiffs have advised the Court they have reached a resolution with the State and certain Industry Defendants:

ETW Management Group, LLC; Libra Wellness Center, LLC; Rombough Real Estate, Inc. dba Mother Herb; Just Quality,
LLC; Zion Gardens, LLC; Global Harmony, LLC; MM Development, LLC; LivFree Wellness, LLC; Nevada Wellness
Center, LLC; Qualcan, LLC; High Sierra Holistics, LLC; Natural Medicine, LLC.

1 Industry Defendants and their attorney Amanda Connor, the impact of the loss of evidence was limited.
2 As a result, the Court imposes an evidentiary sanction in connection with the Sanctions ruling that the
3 evidence on Pupo’s phone, if produced, would have been adverse to the DoT.⁹

4 **PRELIMINARY STATEMENT**

5 All parties agree that the language of an initiative takes precedence over any regulation that is in
6 conflict and that an administrative agency has some discretion in determining how to implement the
7 initiative. The Court gives deference to the agency in establishing those regulations and creating the
8 framework required to implement those provisions in conformity with the initiative.

9 The initiative to legalize recreational marijuana, Ballot Question 2 (“BQ2”), went to the voters
10 in 2016. The language of BQ2 is independent of any regulations that were adopted by the DoT. The
11 Court must balance the mandatory provisions of BQ2 (which the DoT did not have discretion to
12 modify¹⁰), those provisions with which the DoT was granted some discretion in implementation¹¹, and

13 _____
14 ⁹ Given the text messages produced by certain Industry Defendants and Amanda Connor, any presumption is
superfluous given the substance of the messages produced.

15 ¹⁰ Article 19, Section 2(3) provides the touchstone for the mandatory provisions:

16 An initiative measure so approved by the voters shall not be amended, annulled, repealed, set aside or
suspended by the Legislature within 3 years from the date it takes effect.

17 ¹¹ NRS 453D.200(1) required the adoption of regulations for the licensure and oversight of recreational marijuana
18 cultivation, manufacturing/production, sales and distribution, but provides the DoT discretion in exactly what those
regulations would include:

19 . . . the Department shall adopt all regulations necessary or convenient to carry out the provisions of this chapter.
20 The regulations must not prohibit the operation of marijuana establishments, either expressly or through regulations
that make their operation unreasonably impracticable. The regulations shall include:

- 21 (a) Procedures for the issuance, renewal, suspension, and revocation of a license to operate a marijuana
establishment;
- 22 (b) Qualifications for licensure that are directly and demonstrably related to the operation of a marijuana
establishment;
- 23 (c) Requirements for the security of marijuana establishments;
- 24 (d) Requirements to prevent the sale or diversion of marijuana and marijuana products to persons under 21
years of age;
- 25 (e) Requirements for the packaging of marijuana and marijuana products, including requirements for child-
resistant packaging;
- 26 (f) Requirements for the testing and labeling of marijuana and marijuana products sold by marijuana
establishments including a numerical indication of potency based on the ratio of THC to the weight of a product
intended for oral consumption;
- 27 (g) Requirements for record keeping by marijuana establishments;
- 28 (h) Reasonable restrictions on signage, marketing, display, and advertising;
- (i) Procedures for the collection of taxes, fees, and penalties imposed by this chapter;
- (j) Procedures and requirements to enable the transfer of a license for a marijuana establishment to another
qualified person and to enable a licensee to move the location of its establishment to another suitable location;

1 the inherent discretion of an administrative agency to implement regulations to carry out its statutory
2 duties. The Court must give great deference to those activities that fall within the discretionary
3 functions of the agency. Deference is not given where the actions of the DoT were in violation of BQ2
4 or were arbitrary and capricious.

5 **FINDINGS OF FACT**

6 1. Nevada allows voters to amend its Constitution or enact legislation through the initiative
7 process. Nevada Constitution, Article 19, Section 2.

8 2. In 2000, the voters amended Nevada’s Constitution to allow for the possession and use
9 of marijuana to treat various medical conditions. Nevada Constitution, Article 4, Section 38(1)(a). The
10 initiative left it to the Legislature to create laws “[a]uthoriz[ing] appropriate methods for supply of the
11 plant to patients authorized to use it.” Nevada Constitution, Article 4, Section 38(1)(e).

12 3. For several years prior to the enactment of BQ2, the regulation of medical marijuana
13 dispensaries had not been taken up by the Legislature. Some have argued in these proceedings that the
14 delay led to the framework of BQ2.

15 4. In 2013, Nevada’s legislature enacted NRS 453A, which allows for the cultivation and
16 sale of medical marijuana. The Legislature described the requirements for the application to open a
17 medical marijuana establishment. NRS 453A.322. The Nevada Legislature then charged the Division of
18 Public and Behavioral Health with evaluating the applications. NRS 453A.328.

19 5. The materials circulated to voters in 2016 for BQ2 described its purpose as the
20 amendment of the Nevada Revised Statutes as follows:

21
22
23 Shall the *Nevada Revised Statutes* be amended to allow a person, 21 years old or older, to
24 purchase, cultivate, possess, or consume a certain amount of marijuana or concentrated
25 marijuana, as well as manufacture, possess, use, transport, purchase, distribute, or sell marijuana
paraphernalia; impose a 15 percent excise tax on wholesale sales of marijuana; require the

26 (k) Procedures and requirements to enable a dual licensee to operate medical marijuana establishments and
marijuana establishments at the same location;

27 (l) Procedures to establish the fair market value at wholesale of marijuana; and

28 (m) Civil penalties for the failure to comply with any regulation adopted pursuant to this section or for any
violation of the provisions of [NRS 453D.300](#).

1 regulation and licensing of marijuana cultivators, testing facilities, distributors, suppliers, and
2 retailers; and provide for certain criminal penalties?

3 6. BQ2 was enacted by the Nevada Legislature and is codified at NRS 453D.¹²

4 7. BQ2 specifically identified regulatory and public safety concerns:

5 The People of the State of Nevada proclaim that marijuana should be regulated in a manner
6 similar to alcohol so that:

7 (a) Marijuana may only be purchased from a business that is licensed by the State of
8 Nevada;

9 (b) Business owners are subject to a review by the State of Nevada to confirm that the
10 business owners and the business location are suitable to produce or sell marijuana;

11 (c) Cultivating, manufacturing, testing, transporting and selling marijuana will be strictly
12 controlled through State licensing and regulation;

13 (d) Selling or giving marijuana to persons under 21 years of age shall remain illegal;

14 (e) Individuals will have to be 21 years of age or older to purchase marijuana;

15 (f) Driving under the influence of marijuana will remain illegal; and

16 (g) Marijuana sold in the State will be tested and labeled.

17 NRS 453D.020(3).

18 8. BQ2 mandated the DoT to “conduct a background check of each prospective owner,
19 officer, and board member of a marijuana establishment license applicant.” NRS 453D.200(6).

20 9. On November 8, 2016, by Executive Order 2017-02, Governor Brian Sandoval
21 established a Task Force composed of 19 members to offer suggestions and proposals for legislative,
22 regulatory, and executive actions to be taken in implementing BQ2.

23 10. The Nevada Tax Commission adopted temporary regulations allowing the state to issue
24 recreational marijuana licenses by July 1, 2017 (the “Early Start Program”). Only medical marijuana
25 establishments that were already in operation could apply to function as recreational retailers during the
26 early start period. The establishments were required to be in good standing and were required to pay a
27 one-time, nonrefundable application fee as well as a specific licensing fee. The establishment also was
28 required to provide written confirmation of compliance with their municipality’s zoning and location
requirements.

¹² As the provisions of BQ2 and the sections of NRS 453D in effect at the time of the application process (with the exception of NRS 453D.205) are identical, for ease of reference the Court cites to BQ2 as enacted by the Nevada Legislature during the 2017 session in NRS 453D.

1 11. The Task Force’s findings, issued on May 30, 2017, referenced the 2014 licensing
2 process for issuing Medical Marijuana Establishment Registration Certificates under NRS 453A. The
3 Task Force recommended that “the qualifications for licensure of a marijuana establishment and the
4 impartial numerically scored bidding process for retail marijuana stores be maintained as in the medical
5 marijuana program except for a change in how local jurisdictions participate in selection of locations.”

6 12. During the 2017 legislative session, Assembly Bill 422 transferred responsibility for the
7 registration, licensing, and regulation of marijuana establishments from the State of Nevada Division of
8 Public and Behavioral Health to the DoT.¹³

9
10 13. On February 27, 2018, the DoT adopted regulations governing the issuance, suspension,
11 or revocation of retail recreational marijuana licenses in LCB File No. R092-17, which were codified in
12 NAC 453D (the “Regulations”).

13 14. The Regulations for licensing were to be “directly and demonstrably related to the
14 operation of a marijuana establishment.” NRS 453D.200(1)(b). The phrase “directly and demonstrably
15 related to the operation of a marijuana establishment” is subject to more than one interpretation.
16

17 15. Each of the Plaintiffs were issued marijuana establishment licenses involving the
18 cultivation, production and/or sale of medicinal marijuana in or about 2014.
19
20
21

22 ¹³ Those provisions (a portion of which became NRS 453D.205) are consistent with BQ2:

23 1. When conducting a background check pursuant to subsection 6 of [NRS 453D.200](#), the Department may
24 require each prospective owner, officer and board member of a marijuana establishment license applicant to submit
25 a complete set of fingerprints and written permission authorizing the Department to forward the fingerprints to the
Central Repository for Nevada Records of Criminal History for submission to the Federal Bureau of Investigation
for its report.

26 2. When determining the criminal history of a person pursuant to paragraph (c) of subsection 1 of [NRS](#)
27 [453D.300](#), a marijuana establishment may require the person to submit to the Department a complete set of
fingerprints and written permission authorizing the Department to forward the fingerprints to the Central
28 Repository for Nevada Records of Criminal History for submission to the Federal Bureau of Investigation for its
report.

1 16. A person holding a medical marijuana establishment registration certificate could apply
2 for one or more recreational marijuana establishment licenses within the time set forth by the DoT in
3 the manner described in the application. NAC 453D.268.¹⁴
4

5 ¹⁴ Relevant portions of that provision require that application be made

6 . . . by submitting an application in response to a request for applications issued pursuant to [NAC 453D.260](#) which
7 must include:

8 ***

- 9 2. An application on a form prescribed by the Department. The application must include, without limitation:
- 10 (a) Whether the applicant is applying for a license for a marijuana establishment for a marijuana cultivation
11 facility, a marijuana distributor, a marijuana product manufacturing facility, a marijuana testing facility or a retail
12 marijuana store;
 - 13 (b) The name of the proposed marijuana establishment, as reflected in both the medical marijuana establishment
14 registration certificate held by the applicant, if applicable, and the articles of incorporation or other documents filed
15 with the Secretary of State;
 - 16 (c) The type of business organization of the applicant, such as individual, corporation, partnership, limited-liability
17 company, association or cooperative, joint venture or any other business organization;
 - 18 (d) Confirmation that the applicant has registered with the Secretary of State as the appropriate type of business,
19 and the articles of incorporation, articles of organization or partnership or joint venture documents of the applicant;
 - 20 (e) The physical address where the proposed marijuana establishment will be located and the physical address of
21 any co-owned or otherwise affiliated marijuana establishments;
 - 22 (f) The mailing address of the applicant;
 - 23 (g) The telephone number of the applicant;
 - 24 (h) The electronic mail address of the applicant;
 - 25 (i) A signed copy of the Request and Consent to Release Application Form for Marijuana Establishment License
26 prescribed by the Department;
 - 27 (j) If the applicant is applying for a license for a retail marijuana store, the proposed hours of operation during
28 which the retail marijuana store plans to be available to sell marijuana to consumers;
 - 29 (k) An attestation that the information provided to the Department to apply for the license for a marijuana
30 establishment is true and correct according to the information known by the affiant at the time of signing; and
 - 31 (l) The signature of a natural person for the proposed marijuana establishment as described in subsection 1 of [NAC
32 453D.250](#) and the date on which the person signed the application.
- 33 3. Evidence of the amount of taxes paid, or other beneficial financial contributions made, to this State or its
34 political subdivisions within the last 5 years by the applicant or the persons who are proposed to be owners, officers
35 or board members of the proposed marijuana establishment.
- 36 4. A description of the proposed organizational structure of the proposed marijuana establishment, including,
37 without limitation:
- 38 (a) An organizational chart showing all owners, officers and board members of the proposed marijuana
39 establishment;
 - 40 (b) A list of all owners, officers and board members of the proposed marijuana establishment that contains the
41 following information for each person:
 - 42 (1) The title of the person;
 - 43 (2) The race, ethnicity and gender of the person;
 - 44 (3) A short description of the role in which the person will serve for the organization and his or her
45 responsibilities;
 - 46 (4) Whether the person will be designated by the proposed marijuana establishment to provide written notice to
47 the Department when a marijuana establishment agent is employed by, volunteers at or provides labor as a
48 marijuana establishment agent at the proposed marijuana establishment;
 - 49 (5) Whether the person has served or is currently serving as an owner, officer or board member for another
50 medical marijuana establishment or marijuana establishment;
 - 51 (6) Whether the person has served as an owner, officer or board member for a medical marijuana establishment
52 or marijuana establishment that has had its medical marijuana establishment registration certificate or license, as
53 applicable, revoked;

1 NRS 453D.210(6) mandated the DoT to use “an impartial and numerically scored competitive bidding
2 process” to determine successful applicants where competing applications were submitted.

3 17. NAC 453D.272(1) provides the procedure for when the DoT receives more than one
4 “complete” application for a single county. Under this provision the DoT will determine if the

5 (7) Whether the person has previously had a medical marijuana establishment agent registration card or
6 marijuana establishment agent registration card revoked;

7 (8) Whether the person is an attending provider of health care currently providing written documentation for the
8 issuance of registry identification cards or letters of approval;

9 (9) Whether the person is a law enforcement officer;

10 (10) Whether the person is currently an employee or contractor of the Department; and

11 (11) Whether the person has an ownership or financial investment interest in any other medical marijuana
12 establishment or marijuana establishment.

13 5. For each owner, officer and board member of the proposed marijuana establishment:

14 (a) An attestation signed and dated by the owner, officer or board member that he or she has not been convicted of
15 an excluded felony offense, and that the information provided to support the application for a license for a
16 marijuana establishment is true and correct;

17 (b) A narrative description, not to exceed 750 words, demonstrating:

18 (1) Past experience working with governmental agencies and highlighting past experience in giving back to the
19 community through civic or philanthropic involvement;

20 (2) Any previous experience at operating other businesses or nonprofit organizations; and

21 (3) Any demonstrated knowledge, business experience or expertise with respect to marijuana; and

22 (c) A resume.

23 6. Documentation concerning the size of the proposed marijuana establishment, including, without limitation,
24 building and general floor plans with supporting details.

25 7. The integrated plan of the proposed marijuana establishment for the care, quality and safekeeping of marijuana
26 from seed to sale, including, without limitation, a plan for testing and verifying marijuana, a transportation or
27 delivery plan and procedures to ensure adequate security measures, including, without limitation, building security
28 and product security.

8. A plan for the business which includes, without limitation, a description of the inventory control system of the
proposed marijuana establishment to satisfy the requirements of [NRS 453D.300](#) and [NAC 453D.426](#).

9. A financial plan which includes, without limitation:

(a) Financial statements showing the resources of the applicant;

(b) If the applicant is relying on money from an owner, officer or board member, evidence that the person has
unconditionally committed such money to the use of the applicant in the event the Department awards a license to
the applicant and the applicant obtains the necessary approvals from the locality to operate the proposed marijuana
establishment; and

(c) Proof that the applicant has adequate money to cover all expenses and costs of the first year of operation.

10. Evidence that the applicant has a plan to staff, educate and manage the proposed marijuana establishment on a
daily basis, which must include, without limitation:

(a) A detailed budget for the proposed marijuana establishment, including pre-opening, construction and first-year
operating expenses;

(b) An operations manual that demonstrates compliance with this chapter;

(c) An education plan which must include, without limitation, providing educational materials to the staff of the
proposed marijuana establishment; and

(d) A plan to minimize the environmental impact of the proposed marijuana establishment.

11. If the application is submitted on or before November 15, 2018, for a license for a marijuana distributor,
proof that the applicant holds a wholesale dealer license issued pursuant to [Chapter 369](#) of NRS, unless the
Department determines that an insufficient number of marijuana distributors will result from this limitation.

12. A response to and information which supports any other criteria the Department determines to be relevant,
which will be specified and requested by the Department at the time the Department issues a request for
applications which includes the point values that will be allocated to the applicable portions of the application
pursuant to subsection 2 of [NAC 453D.260](#).

1 “application is complete and in compliance with this chapter and Chapter 453D of NRS, the
2 Department will rank the applications . . . in order from first to last based on the compliance with the
3 provisions of this chapter and Chapter 453D of NRS and on the content of the applications relating
4 to . . .” several enumerated factors. NAC 453D.272(1).

5 18. The factors set forth in NAC 453D.272(1) that are used to rank competing applications
6 received for a single county (collectively, the “Factors”) are:

- 7
- 8 (a) Whether the owners, officers or board members have experience operating another kind
9 of business that has given them experience which is applicable to the operation of a marijuana
10 establishment;
 - 11 (b) The diversity of the owners, officers or board members of the proposed marijuana
12 establishment;
 - 13 (c) The educational achievements of the owners, officers or board members of the proposed
14 marijuana establishment;
 - 15 (d) The financial plan and resources of the applicant, both liquid and illiquid;
 - 16 (e) Whether the applicant has an adequate integrated plan for the care, quality and
17 safekeeping of marijuana from seed to sale;
 - 18 (f) The amount of taxes paid and other beneficial financial contributions, including, without
19 limitation, civic or philanthropic involvement with this State or its political subdivisions, by the
20 applicant or the owners, officers or board members of the proposed marijuana establishment;
 - 21 (g) Whether the owners, officers or board members of the proposed marijuana establishment
22 have direct experience with the operation of a medical marijuana establishment or marijuana
23 establishment in this State and have demonstrated a record of operating such an establishment in
24 compliance with the laws and regulations of this State for an adequate period of time to
25 demonstrate success;
 - 26 (h) The (unspecified) experience of key personnel that the applicant intends to employ in
27 operating the type of marijuana establishment for which the applicant seeks a license; and
 - 28 (i) Any other criteria that the Department determines to be relevant.

19. Each of the Factors is within the DoT’s discretion in implementing the application
process provided for in BQ2. The DoT had a good-faith basis for determining that each of the Factors
is “directly and demonstrably related to the operation of a marijuana establishment.”

20. Pupo met with several of the applicants’ agent, Amanda Conner, Esq., numerous times
for meals in the Las Vegas Valley. Pupo also met with representatives of several of the applicants in
person. These meetings appeared to relate to regulatory, disciplinary and application issues.

1 21. The DoT posted the application on its website and released the application for
2 recreational marijuana establishment licenses on July 6, 2018.¹⁵

3 22. The DoT used a Listserv¹⁶ to communicate with prospective applicants.

4 23. While every medical marijuana certificate holder was required to have a contact person
5 with information provided to the DoT for purposes of communication, not every marijuana
6 establishment maintained a current email or checked their listed email address regularly, and some of
7 the applicants contend that they were not aware of the revised application.
8

9 24. Applications were accepted from September 7, 2018 through September 20, 2018.

10 25. The DoT elected to utilize a bright line standard for evaluating the factor “operating
11 such an establishment in compliance” of whether the applicant was suspended or revoked.¹⁷ If an
12 applicant was suspended or revoked they were not qualified to apply. This information was
13 communicated in the cover letter with the application.¹⁸ This decision was within the discretion of the
14 DoT.
15
16
17
18

19 ¹⁵ The DoT made a change to the application after circulating the first version of the application to delete the
20 requirement of a physical location. The modification resulted in a different version of the application bearing the same
“footer” with the original version remaining available on the DoT’s website.

21 ¹⁶ According to Dictionary.com, the term “Listserv” is used to refer to online mailing list. When capitalized it refers
22 to a proprietary software.

23 ¹⁷ The method by which certain disciplinary matters (self-reported or not) were resolved by the DoT would not affect
the grading process.

24 ¹⁸ The cover letter reads in part:

25 All applicants are required to be in compliance with the following:
26 All licenses, certificates, and fees are current and paid;
Applicant is not delinquent in the payment of any tax administered by the Department or is not in default on
27 payment required pursuant to a written agreement with the Department; or is not otherwise liable to the Department
for the payment of money;
28 No citations for illegal activity or criminal conduct; and
Plans of correction are complete and on time, or are in progress within the required 10 business days.

1 26. The DoT utilized a question and answer process through a generic email account at
2 marijuana@tax.state.nv.us to allow applicants to ask questions and receive answers directly from the
3 DoT, and that information was not further disseminated by the DoT to other applicants.¹⁹

4 27. The cover letter with the application advised potential applicants of the process for
5 questions:

6 Do not call the division seeking application clarification or guidance.
7 Email questions to marijuana@tax.state.nv.us

8 28. No statutory or regulatory requirement for a single point of contact process required the
9 DoT to adopt this procedure.

10 29. As the individual responsible for answering the emailed questions stated:

11 Jorge Pupo is the MED deputy Director. Steve Gilbert is program manager and reports to Jorge.
12 I report to Steve. Steve prefers to not have the world know our structure. He likes industry folks
13 knowing though and addressing them. He has all questions come to me. One's I can't answer,
14 he fields and has me respond, then if he can't then Jorge gets them and Jorge has me respond.
That's the goal anyway. ☺

15 Ky Plaskon text to Rebecca Gaska 9/18/2018, Exhibit 1051.

16 30. Some applicants abided by this procedure.

17 31. The DoT did not post the questions and answers so that all potential applicants would be
18 aware of the process

19 32. The DoT made no effort to ensure that the applicants received the same answers
20 regardless of which employee of the DoT the applicant asked.

21 33. On July 9, 2018, at 4:06 pm, Amanda Connor sent a text to Pupo:

22 List of things for us to talk about when you can call me:
23 Attachment E
24 Attachment I
25 Requirement for a location or physical address
26 Attachment F
Requirement for initial licensing fee

27 _____
28 ¹⁹ This single point of contact process had been used in the 2014 medical marijuana establishment application period.
The questions and answers were posted to the department's website for all potential applicants to review and remain there to
this day. Exhibit 2038.

1 Transfers of ownership

2
3 Exhibit 1588-052.

4 34. Although Pupo tried to direct Amanda Connor to Steve Gilbert, she texted him that she
5 would wait rather than speak to someone else.

6 35. On the morning of July 11, 2018, Pupo and Amanda Connor spoke for twenty-nine
7 minutes and forty-five seconds.²⁰

8
9 36. Despite the single point of contact process being established, the DoT departed from this
10 procedure. By allowing certain applicants and their representatives to personally contact the DoT
11 employee about the application process, the DoT violated its own established procedures for the
12 application process.

13 37. After the posting of the application on July 6, 2018, Pupo decided to eliminate the
14 physical location requirement outlined in NRS 453D.210(5) and NAC 453D.265(b)(3).²¹

15
16 38. The DoT published a revised application on July 30, 2018. This revised application was
17 sent to all participants via the DoT's Listserv. The revised application modified physical address
18 requirements. For example, a sentence on Attachment A of the application, prior to this revision, the
19 sentence had read, "Marijuana Establishment's proposed physical address (this must be a Nevada
20 address and cannot be a P.O. Box)." The revised application on July 30, 2018, read: "Marijuana
21 Establishment's proposed physical address if the applicant owns property or has secured a lease or
22 other property agreement (this must be a Nevada address and not a P.O. Box). Otherwise, the
23 applications are virtually identical.
24

25
26
27 ²⁰ Exhibit 1809-054.

28 ²¹ It is unclear whether Pupo had communications similar to those with Amanda Connor with other potential applicants or their agents as Pupo did not preserve the data from his cell phone.

1 39. The DoT sent a copy of the revised application through the Listserv used by the DoT.
2 Not all Plaintiffs' correct emails were included on this list.

3 40. The July 30, 2018, application, like its predecessor, described how applications were to
4 be scored. The scoring criteria was divided into identified criteria and non-identified criteria. The
5 maximum points that could be awarded to any applicant based on these criteria was 250 points.

6 41. The identified criteria consisted of organizational structure of the applicant (60 points);
7 evidence of taxes paid to the State of Nevada by owners, officers, and board members of the applicant
8 in the last 5 years (25 points); a financial plan (30 points); and documents from a financial institution
9 showing unencumbered liquid assets of \$250,000 per location for which an application is submitted.

10 42. The non-identified criteria²² all consisted of documentation concerning the integrated
11 plan of the proposed marijuana establishment for the care, quality and safekeeping of marijuana from
12 seed to sale (40 points); evidence that the applicant has a plan to staff, educate and manage the
13 proposed recreational marijuana establishment on a daily basis (30 points); a plan describing operating
14 procedures for the electronic verification system of the proposed marijuana establishment and
15 describing the proposed establishment's inventory control system (20 points); building plans showing
16 the proposed establishment's adequacy to serve the needs of its customers (20 points); and a proposal
17 explaining likely impact of the proposed marijuana establishment in the community and how it will
18 meet customer needs (15 points).

19 43. An applicant was permitted to submit a single application for all jurisdictions in which it
20 was applying, and the application would be scored at the same time.
21
22
23
24
25
26

27 ²² About two weeks into the grading process the Independent Contractors were advised by certain DoT employees
28 that if an identifier was included in the nonidentified section points should be deducted. It is unclear from the testimony
whether adjustments were made to the scores of those applications graded prior to this change in procedure being
established.

1 44. Although the amended application changed the language related to a physical address,
2 there was still confusion.²³

3 45. Amanda Connor corresponded with Pupo by email requesting clarification on August
4 22, 2018.²⁴

5 46. Although the DoT had used certain DoT personnel to grade applications for medical
6 marijuana establishment applications in White Pine County shortly before the recreational applications
7 were graded, the DoT made a decision for resource and staff reasons that non DoT employees hired on
8 a temporary basis would be used to grade the recreational medical marijuana applications.
9

10 47. Prior to the close of the application evaluation process, Pupo discussed with a
11 representative of the Essence Entities the timing of closing a deal involving the purchase of the entities
12 by a publicly traded company.

13 48. By September 20, 2018, the DoT received a total of 462 applications.
14

15 ²³ One plaintiff was advised by counsel (not Amanda Conner) that, despite the information related to the change for
16 physical address, the revised application appeared to conflict with the statute's physical address requirement and that
therefore a physical address was required.

17 ²⁴ The email thread reads:

18 On Aug 22 at 6:17 pm Amanda Connor wrote

19 Jorge –

20 I know the regulations make clear that land use or the property will not be considered in the application and having a
21 location secured is not required, but there seems to be some inconsistency in the application. Can you please confirm that a
location is not required and documentation about a location will not be considered or no points will be granted for having a
location?

22 On Aug 22 at 8:15 pm Pupo wrote:

23 That is correct. If you have a lease or own property than (sic) put those plans. If you dont (sic) then tell us what will the
24 floorplan be like etc etc

25 On Aug 22 at 8:24 pm Amanda Connor wrote

26 But a person who has a lease or owns the property will not get more points simply for having the property secured, correct?

27 On Aug 22 at 8:27 pm Pupo wrote:

28 Nope. LOCATION IS NOT SCORED DAMN IT!

Exhibit 2064.

1 49. In order to grade and rank the applications, the DoT posted notices that it was seeking to
2 hire individuals with specified qualifications necessary to evaluate applications. Certain DoT
3 employees also reached out to recent State retirees who might have relevant experience as part of their
4 recruitment efforts. The DoT interviewed applicants and made decisions on individuals to hire for each
5 position.

6 50. When decisions were made on who to hire, the individuals were notified that they would
7 need to register with “Manpower” under a preexisting contract between the DoT and that company.
8 Individuals would be paid through Manpower, as their application-grading work would be of a
9 temporary nature.
10

11 51. The DoT identified, hired, and provided some training to eight individuals hired to
12 grade the applications, including three to grade the identified portions of the applications, three to grade
13 the non-identified portions of the applications, and one administrative assistant for each group of
14 graders (collectively the “Independent Contractors”).
15

16 52. Based upon the testimony at trial, it remains unclear how the DoT trained the Temporary
17 Employees. While portions of the training materials from PowerPoint decks were introduced into
18 evidence, it is unclear which slides from the PowerPoint decks were used. Testimony regarding the
19 oral training based upon example applications and practice grading of prior medical marijuana
20 establishment applications was insufficient for the Court to determine the nature and extent of the
21 training of the Independent Contractors.
22

23 53. Based on the evidence adduced, the Court finds that the lack of training for the graders
24 affected the graders’ ability to evaluate the applications objectively and impartially.

25 54. NAC 453D.272(1) required the DoT to determine that an Application is “complete and
26 in compliance” with the provisions of NAC 453D in order to properly apply the licensing criteria set
27 forth therein and the provisions of the Ballot Initiative and the enabling statute.
28

1 55. In evaluating whether an application was “complete and in compliance,” the DoT made
2 no effort to verify owners, officers or board members (except for checking whether a transfer request
3 was made and remained pending before the DoT).

4 56. For purposes of grading the applicant’s organizational structure²⁵ and diversity, if an
5 applicant’s disclosure in its application of its owners, officers, and board members did not match the
6 DoT’s own records, the DoT did not penalize the applicant. Rather, the DoT permitted the grading, and
7 in some cases, awarded a conditional license to an applicant under such circumstances and dealt with
8 the issue by simply informing the winning applicant that its application would have to be brought into
9 conformity with DoT records.
10

11 57. The DoT announced the award of conditional licenses in December 2018.

12 58. The DoT did not comply with BQ2 by requiring applicants to provide information for
13 each prospective owner, officer and board member or verify the ownership of applicants applying for
14 retail recreational marijuana licenses. Instead the DoT issued conditional licenses to applicants who
15 did not identify each prospective owner, officer and board member.
16

17 59. Some of the Industry Defendants and their agent Ms. Connor, produced text messages
18 forensically extracted from their cell phones revealing the extent of contact and substance of
19 communications between them and Pupo. Additionally, phone records of Pupo identifying telephone
20 numbers communicated with and length of communication (but not content) were obtained from
21 Pupo’s cellular service provider. This evidence reinforces the presumption related to Pupo’s failure to
22 preserve evidence and reflects the preferential access and treatment provided.²⁶
23
24

25 ²⁵ The use of Advisory Boards by many applicants who were LLCs has been criticized. The DoT provided no
26 guidance to the potential applicants or the Temporary Employees of the manner by which these “Boards” should be
evaluated. As this applied equally to all applicants, it is not a basis for relief.

27 ²⁶ TGIG also was represented by Amanda Conner and had communications with Pupo. TGIG did not provide its
28 communications with Pupo.

1 60. The DoT's late decision to delete the physical address requirement on some application
2 forms while not modifying those portions of the application that were dependent on a physical location
3 (i.e. floor plan, community impact, security plan, and the sink locations) after the repeated
4 communications by an applicant's agent, not effectively communicating the revision, and leaving the
5 original version of the application on the website is evidence of a lack of a fair process.

6 61. The DoT's departure from its stated single point of contact and the degree of direct
7 personal contact outside the single point of contact process provided unequal, advantageous and
8 supplemental information to some applicants and is evidence of a lack of a fair process.

9 62. Pursuant to NAC 453D.295, the winning applicants received a conditional license that
10 would not be finalized unless within twelve months of December 5, 2018, the licensees receive a final
11 inspection of their marijuana establishment.²⁷

12 63. The DoT's lack of compliance with the established single point of contact and the
13 pervasive communications, meetings with Pupo, and preferential information provided to certain
14 applicants creates an uneven playing field because of the unequal information available to potential
15 applicants. This conduct created an unfair process for which injunctive relief may be appropriate.

16 64. The only direct action attributed to Pupo during the evaluation and grading process
17 related to the determination related to the monopolistic practices. Based upon the testimony adduced at
18 trial, Pupo's reliance upon advice of counsel from Deputy Attorney General Werbicky in making this
19 decision removes it from an arbitrary and capricious exercise of discretion.

20 65. Nothing in NRS 453D or NAC 453D provides for any right to an appeal or review of a
21 decision denying an application for a retail recreational marijuana license.

22 66. In 2019, more than three years from the passage of Ballot Question 2, Nevada's
23 legislature repealed NRS 453D.200. 2019 Statutes of Nevada, Page 3896.

24
25
26
27
28 ²⁷ The DoT has agreed to extend this deadline due to these proceedings and the public health emergency. Some of
the conditional licenses not enjoined under the preliminary injunction have now received final approval.

1 67. With its repeal, NRS 453D.200 was no longer effective as of July 1, 2020.

2 68. Nevada’s legislature also enacted statutes setting forth general qualifications for
3 licensure and registration of persons who have applied to receive marijuana establishment licenses.
4 NRS 678B.200.

5 69. The CCB was formed by the legislature and is now the government entity that oversees
6 and regulates the cannabis industry in the State of Nevada. By statute, the CCB now determines if the
7 “person is qualified to receive a license...” NRS 678B.200(1).

8
9 70. There are an extremely limited number of licenses available for the sale of recreational
10 marijuana.

11 71. The number of licenses available was set by BQ2 and is contained in NRS
12 453D.210(5)(d).

13 72. The secondary market for the transfer of licenses is limited.²⁸

14 73. Although there has been little tourism demand for legal marijuana sales due to the public
15 health emergency and as a result growth in legal marijuana sales has declined, the market is not
16 currently saturated. With the anticipated return of tourism after the abatement of the current public
17 health emergency, significant growth in legal marijuana sales is anticipated. Given the number of
18 variables related to new licenses, the claim for loss of market share is too speculative for relief.

19
20 74. Since the Court does not have authority to order additional licenses in particular
21 jurisdictions and because there are a limited number of licenses that are available in certain
22 jurisdictions, injunctive relief may be necessary to permit the Plaintiffs, if successful in the NRS
23 453D.210(6) process, to actually obtain a license with respect to the issues on which partial summary
24 judgment was granted.
25

26
27 _____
28 ²⁸ Multiple changes in ownership have occurred since the applications were filed. Given this testimony, simply updating the applications previously filed would not comply with BQ2.

1 75. The remaining Plaintiffs²⁹(excluding TGIG) (the “Untainted Plaintiffs”) have not
2 identified by a preponderance of the evidence, that if a single point of contact was followed by the DoT
3 and equal information provided to all applicants, as was done for the medical marijuana application
4 process, that there is a substantial likelihood they would have been successful in the ranking process.

5 76. After balancing the equities among the parties, the Court determines that the balance of
6 equities does not weigh in favor of the Untainted Plaintiffs on the relief beyond that previously granted
7 in conjunction with the partial summary judgment order entered on August 17, 2020.

8 77. If any findings of fact are properly conclusions of law, they shall be treated as if
9 appropriately identified and designated.
10

11 **CONCLUSIONS OF LAW**

12 78. This Court has previously held that the 5 percent rule found in NAC 453D.255(1) was
13 an impermissible deviation from the background check requirement of NRS 453D.200(6) as applied to
14 that statute.

15 79. “Any person...whose rights, status or other legal relations are affected by a statute,
16 municipal ordinance, contract or franchise, may have determined any question of construction or
17 validity arising under the instrument, statute, ordinance, contract or franchise and obtain a declaration
18 of rights, status or other legal relations thereunder.” NRS 30.040.

Defendants who were clients of Amanda Connor.

1 a rational relation to some legitimate end.” *Romer v. Evans*, 517 U.S. 620, 631 (1996). When the state
2 or federal government arbitrarily and irrationally treats groups of citizens differently, such unequal
3 treatment runs afoul the Equal Protection Clause. *Engquist v. Oregon Dep’t of Agr.*, 553 U.S. 591, 601
4 (2008). Where an individual or group were treated differently but are not associated with any distinct
5 class, Plaintiffs must show that they were “intentionally treated differently from others similarly
6 situated and that there is no rational basis for the difference in treatment.” *Vill. of Willowbrook v.*
7 *Olech*, 528 U.S. 562, 564 (2000).

8
9 82. The Nevada Constitution also demands equal protection of the laws under Article 4,
10 Section 21 of the Nevada Constitution. *See Doe v. State*, 133 Nev. 763, 767, 406 P.3d 482, 486 (2017).

11 83. NRS 33.010 governs cases in which an injunction may be granted. The applicant must
12 show (1) a likelihood of success on the merits; and (2) a reasonable probability that the non-moving
13 party’s conduct, if allowed to continue, will cause irreparable harm for which compensatory damage is
14 an inadequate remedy.

15
16 84. Plaintiffs have the burden to demonstrate that the DoT’s conduct, if allowed to continue,
17 will result in irreparable harm for which compensatory damages is an inadequate remedy.

18 85. The Nevada Supreme Court has recognized that “[i]nitiative petitions must be kept
19 substantively intact; otherwise, the people’s voice would be obstructed. . . [I]nitiative legislation is not
20 subject to judicial tampering. The substance of an initiative petition should reflect the unadulterated
21 will of the people and should proceed, if at all, as originally proposed and signed. For this reason, our
22 constitution prevents the Legislature from changing or amending a proposed initiative petition that is
23 under consideration.” *Rogers v. Heller*, 117 Nev. 169, 178, 18 P.3d 1034,1039–40 (2001).

24
25 86. BQ2 provides, “the Department shall adopt all regulations necessary or convenient to
26 carry out the provisions of this chapter.” NRS 453D.200(1). This language does not confer upon the
27 DoT unfettered or unbridled authority to do whatever it wishes without constraint. The DoT was not
28

1 delegated the power to legislate amendments because this is initiative legislation. The Legislature itself
2 has no such authority with regard to NRS 453D until three years after its enactment under the
3 prohibition of Article 19, Section 2 of the Constitution of the State of Nevada.

4 87. Where, as here, amendment of a voter-initiated law is temporally precluded from
5 amendment for three years, the administrative agency may not modify the law.³⁰

6 88. An agency’s action in interpreting and executing a statute it is tasked with interpreting is
7 entitled to deference “unless it conflicts with the constitution or other statutes, exceeds the agency’s
8 powers, or is otherwise arbitrary and capricious.” *Nuleaf CLV Dispensary, LLC v. State Dept. of Health*
9 *and Human Services, Div. of Pub. and Behavioral Health*, 414 P.3d 305, 308 (Nev. 2018) (quoting
10 *Cable v. State ex rel. Emp’rs Ins. Co. of Nev.*, 122 Nev. 120, 126, 127 P.3d 528, 532 (2006)).

11 89. NRS 453D.200(1) provides that “the Department shall adopt all regulations necessary or
12 convenient to carry out the provisions of this chapter.” The Court finds that the words “necessary or
13 convenient” are susceptible to at least two reasonable interpretations. This limitation applies only to
14 Regulations adopted by the DoT.
15

16 90. While the category of diversity is not specifically included in the language of BQ2, the
17 evidence presented in the hearing demonstrates that a rational basis existed for the inclusion of this
18 category in the Factors and the application.
19

20 91. The DoT’s inclusion of the diversity category was implemented in a way that created a
21 process which was partial and subject to manipulation by applicants.

22 92. NAC 453D.272 contains what is commonly referred to as the Regulations’ “anti-
23 monopoly” provision. It forbids the DoT from issuing to any person, group of persons, or entity, in a
24 county whose population is 100,000 or more, the greater of one license to operate a retail marijuana
25 store or more than 10 percent of the retail marijuana licenses allocable for the county.
26

27
28 ³⁰ The Court notes that the Legislature has now modified certain provisions of BQ2. The Court relies on those statutes and regulations in effect at the time of the application process.

1 93. Although not required to use a single point of contact process for questions related to the
2 application, once DoT adopted that process and published the appropriate process to all potential
3 applicants, the DoT was bound to follow that process.

4 94. The DoT employees provided various applicants with different information as to
5 diversity and what would be utilized from this category and whether it would be used merely as a
6 tiebreaker or as a substantive category.

7 95. The DoT selectively discussed with applicants or their agents the modification of the
8 application related to physical address as well as other information contained in the application.

9 96. The process was impacted by personal relationships in decisions related to the
10 requirements of the application and the ownership structures of competing applicants.

11 97. The intentional and repeated violations of the single point of contact process in favor of
12 only a select group of applicants was an arbitrary and capricious act and served to contaminate the
13 process. These repeated violations adversely affected applicants who were not members of that select
14 group. These violations are in and of themselves insufficient to void the process as urged by some of
15 the Plaintiffs.

16 98. The DoT disseminated various versions of the 2018 Retail Marijuana Application, one
17 of which was published on the DoT's website and required the applicant to provide an actual physical
18 Nevada address for the proposed marijuana establishment, and not a P.O. Box, and an alternative
19 version of the DoT's application form, which was distributed to some, but not all, of the potential
20 applicants via a DoT Listserv, which deleted the requirement that applicants disclose an actual physical
21 address for their proposed marijuana establishment.

22 99. The applicants were applying for conditional licensure, which would last for 1 year.
23 NAC 453D.282. The license was conditional based on the applicant's gaining approval from local
24

1 authorities on zoning and land use, the issuance of a business license, and the Department of Taxation
2 inspections of the marijuana establishment.

3 100. By selectively eliminating the requirement to disclose an actual physical address for
4 each and every proposed retail recreational marijuana establishment, the DoT limited the ability of the
5 Independent Contractors to adequately assess graded criteria such as (i) prohibited proximity to schools
6 and certain other public facilities, (ii) impact on the community, (iii) security, (iv) building plans, and
7 (v) other material considerations prescribed by the Regulations.
8

9 101. The hiring of Independent Contractors was well within the DoT's discretionary power.

10 102. The evidence establishes that the DoT failed to properly train the Independent
11 Contractors. The DoT failed to establish any quality assurance or quality control of the grading done
12 by Independent Contractors.³¹ This is not an appropriate basis for the requested relief as the DoT
13 treated all applicants the same in the grading process. The DoT's failures in training the Independent
14 Contractors applied equally to all applicants.
15

16 103. The DoT made licensure conditional for one year based on the grant of power to create
17 regulations that develop "[p]rocedures for the issuance, renewal, suspension, and revocation of a
18 license to operate a marijuana establishment." NRS 453D.200(1)(a). This was within the DoT's
19 discretion.
20

21 104. Certain of DoT's actions related to the licensing process were nondiscretionary
22 modifications of BQ2's mandatory requirements.³² The evidence establishes DoT's deviations
23 constituted arbitrary and capricious conduct without any rational basis for the deviation.
24

25 105. The DoT's decision to not require disclosure on the application and to not conduct
26 background checks of persons owning less than 5 percent prior to award of a conditional license is an
27

28 ³¹ The only QA/QC process was done by the Temporary Employees apparently with no oversight by the DoT.

³² These are contained in the order entered August 17, 2020.

1 impermissible deviation from the mandatory language of BQ2, which mandated “a background check
2 of each prospective owner, officer, and board member of a marijuana establishment license applicant.”
3 NRS 453D.200(6).

4 106. Under the circumstances presented here, the Court concludes that certain of the
5 Regulations created by the DoT are unreasonable, inconsistent with BQ2, and outside of any discretion
6 permitted to the DoT.

7 107. The DoT acted beyond its scope of authority when it arbitrarily and capriciously
8 replaced the mandatory requirement of BQ2, for the background check of each prospective owner,
9 officer and board member with the 5 percent or greater standard in NAC 453.255(1). This decision by
10 the DoT was not one they were permitted to make as it resulted in a modification of BQ2 in violation of
11 Article 19, Section 2(3) of the Nevada Constitution.
12

13 108. The balance of equities weighs in favor of Plaintiffs on the issue for which partial
14 summary judgment has been granted.³³
15

16 109. The DoT stands to suffer no appreciable losses and will suffer only minimal harm as a
17 result of an injunction related to the August 17, 2020, partial summary judgment.

18 110. The bond previously posted for the preliminary injunction is released to those parties
19 who posted the bond.³⁴

20 111. If any conclusions of law are properly findings of fact, they shall be treated as if
21 appropriately identified and designated.
22
23
24

25 ³³ The order concludes:

26 [A]s a matter of law, the DoT acted beyond the scope of its authority by replacing the requirement for
27 a background check of each prospective owner with the 5 percent or greater standard in NAC 453D.255(1).

28 ³⁴ Any objections to the release of the bond must be made within five judicial days of entry of this order. If no
objections are made, the Court will sign an order submitted by Plaintiffs. If an objection is made, the Court will set a
hearing for further argument on this issue.

ORDER

IT IS HEREBY ORDERED, ADJUDGED AND DECREED that:

The claim for declaratory relief is granted. The Court declares:

The DoT acted beyond its scope of authority when it arbitrarily and capriciously replaced the mandatory requirement of BQ2, for the background check of each prospective owner, officer and board member with the 5 percent or greater standard in NAC 453.255(1). This decision by the DoT was not one they were permitted to make as it resulted in a modification of BQ2 in violation of Article 19, Section 2(3) of the Nevada Constitution.

The claim for equal protection is granted in part:

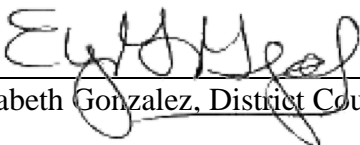

With respect to the decision by the DoT to arbitrarily and capriciously replace the mandatory requirement of BQ2, for the background check of each prospective owner, officer and board member with the 5 percent or greater standard in NAC 453.255(1), the DoT created an unfair process. No monetary damages are awarded given the speculative nature of the potential loss of market share.

Injunctive relief under these claims is appropriate. The State is permanently enjoined from conducting a final inspection of any of the conditional licenses issued in or about December 2018 for an applicant who did not provide the identification of each prospective owner, officer and board member as required by NRS 453D.200(6).

The Court declines to issue an extraordinary writ unless violation of the permanent injunction occurs.

All remaining claims for relief raised by the parties in this Phase are denied.

DATED this 3rd day of September 2020.

Elizabeth Gonzalez, District Court Judge

Certificate of Service

I hereby certify that on the date filed, these Findings of Fact, Conclusion of Law and Permanent Injunction were electronically served, pursuant to N.E.F.C.R. Rule 9, to all registered parties in the Eighth Judicial District Court Electronic Filing Program.
